<input type="checkbox"/>	Question Type	Question	A	B	C	D	Answer	Remark
<input type="checkbox"/>	FBQ	The activity involving gathering and use of information if it follows the scientific method is called <input type="text"/>	Science					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	Authority, Intuition, Tenacity are ways of acquiring <input type="text"/>	knowledge					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	The ways Priorists believe in is known as <input type="text"/>	Intuition Method					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	The following documents: official records, files, wills, diaries, minutes of meeting are classified as <input type="text"/>	Primary Sources					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	The set of all elements, objects or events of interest or on which an inference is desired is known as <input type="text"/>	Population					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	A set of measured or described observations is known as <input type="text"/>	Data					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	The significance of the study is found in chapter <input type="text"/>	one					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	chapter <input type="text"/> is usually devoted to the detailed description of the statistical methods employed to analyze data, and the presentation of results.	four					<input type="button" value="eExam"/>

<input type="checkbox"/>									
<input type="checkbox"/>	FBQ	Chapter <input type="text"/> in most research reports is taken to be the concluding chapter .	five						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> has to do with careful and systematic location, documentations, analysis and reporting of information of all available existing work, which are relevant, related and useful to the proposed research work	literature review						eExam
<input type="checkbox"/>	FBQ	Magazine is an examples of <input type="text"/> sources.							eExam
<input type="checkbox"/>	FBQ	It is very important that a researcher use the <input type="text"/> , it is the store house of knowledge and wisdom .	library						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> provide required information leading to the location and retrieval of books in a library.	catalogues						eExam
<input type="checkbox"/>	FBQ	An <input type="text"/> report gives a clear picture of the problem and scope of the study.	abstract						eExam
<input type="checkbox"/>	FBQ	An ethical dilemma is a situation that will often involve an apparent <input type="text"/> between moral imperatives in which to obey one would result transgressing another .	conflict						eExam
<input type="checkbox"/>	FBQ	Researchers should maintain and improve their own professional competence and expertise through life long education and <input type="text"/>	learning						eExam
<input type="checkbox"/>	FBQ	A researcher should avoid careless <input type="text"/> and negligence.	errors						eExam

<input type="checkbox"/>									
<input type="checkbox"/>	FBQ	A researcher should strive for <input type="text"/> in all scientific communications.	honesty						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> are norms for conduct that distinguish between acceptable and unacceptable behavior .	Ethics						eExam
<input type="checkbox"/>	FBQ	The <input type="text"/> enables researchers to keep abreast with current research in certain areas without going to the original reports .	Abstract						eExam
<input type="checkbox"/>	FBQ	There are two types of catalogue namely; the subject catalogue and the <input type="text"/> catalogue .	author						eExam
<input type="checkbox"/>	FBQ	Encyclopedia is an examples of <input type="text"/> sources .	secondary						eExam
<input type="checkbox"/>	FBQ	Academic journals is an example of <input type="text"/> source is the research	Primary						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> saves the researcher's time because the previous studies will provide inputs, information, mistakes, problem encountered and further suggestions .	Literature Review						eExam
<input type="checkbox"/>	FBQ	The three main validity are: face validity, content validity, <input type="text"/> validity .	Construct						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> scales are scales that have order distance and specific origin .	Ratio						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> Scale is the lowest level and crudest form of measurement .	Normal						eExam

<input type="checkbox"/>								
<input type="checkbox"/>	FBQ	<input type="text"/> involves mapping a characteristics of an object on a corresponding characteristic of another object according to a specified rule .	measurement					eExam
<input type="checkbox"/>	FBQ	<input type="text"/> is the final stage in reporting .	Referencing					eExam
<input type="checkbox"/>	FBQ	Chapter <input type="text"/> is usually devoted to the detailed description of the statistical methods employed to analyze data, and the presentation of results .	four					eExam
<input type="checkbox"/>	FBQ	In chapter <input type="text"/> the researcher should also carefully explain the instruments used to obtain the data and outline step by step description of how the study was conducted .	three					eExam
<input type="checkbox"/>	FBQ	<input type="text"/> is the bedrock of any meaningful and purposeful research.	Literature Review					eExam
<input type="checkbox"/>	FBQ	Chapter <input type="text"/> introduces the reader to the research problem.	One					eExam
<input type="checkbox"/>	FBQ	Certification page comes after the <input type="text"/> page .	title					eExam
<input type="checkbox"/>	FBQ	Suggestions for further studies is always in chapter <input type="text"/>	five					eExam
<input type="checkbox"/>	FBQ	Data collection instrument is always in chapter <input type="text"/>	Three					eExam
<input type="checkbox"/>	FBQ	Delimitation is the same as <input type="text"/> of the study .	scope					eExam
<input type="checkbox"/>	FBQ	Statement of the terms is the same as <input type="text"/>	concepts					eExam

<input type="checkbox"/>								
<input type="checkbox"/>	FBQ	Purpose of the study is the same as <input type="text"/>	significance					eExam
<input type="checkbox"/>	FBQ	There are two types of sampling designs or models, probability and <input type="text"/> sampling methods .	non – probability					eExam
<input type="checkbox"/>	FBQ	<input type="text"/> definition can be defined as the concrete and specific definition of something in terms of the operation(s) by which observations are to be categorized .	Operational					eExam
<input type="checkbox"/>	FBQ	When selection is done in such a way that the chosen one is a fair representation of the target population then the choice is said to be <input type="text"/>	random					eExam
<input type="checkbox"/>	FBQ	A <input type="text"/> is a subset of a population from which data for a study is collected .	Sample					eExam
<input type="checkbox"/>	FBQ	A <input type="text"/> is a list of sampling units .	frame					eExam
<input type="checkbox"/>	FBQ	<input type="text"/> _are certain characteristics of objects which are amenable or subject to change and can take on different values at any given time depending on the condition(s) imposed on them .	Variables					eExam
<input type="checkbox"/>	FBQ	<input type="text"/> are a set of research information expressed in quantifiable forms for the purpose of statistical analysis .	Data					eExam
<input type="checkbox"/>	FBQ	<input type="text"/> is a collection or set of individuals or objects whose properties are to be analyzed, It can be finite or infinite.	Population					eExam

<input type="checkbox"/>									
<input type="checkbox"/>	FBQ	Any individual case of a given population is an (a) <input type="text"/> of that population.	element						eExam
<input type="checkbox"/>	FBQ	Secondary data are also called <input type="text"/> information.	Second hand						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> are classified as either primary or secondary according to the possible sources of data that exist.	Data						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> normally believe that truth is through intuition without any search or further proof of what is being considered as the truth.	Priorists						eExam
<input type="checkbox"/>	FBQ	The term <input type="text"/> is also used to mean the confident understanding of a subject with the ability to use it for a specific purpose if appropriate .	knowledge						eExam
<input type="checkbox"/>	FBQ	A researcher who carefully documents or reports the events that take place during riot serves a <input type="text"/> purpose.	descriptive						eExam
<input type="checkbox"/>	FBQ	Three of the most common and useful purposes of social research are exploration, description and <input type="text"/>	Explanation						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> is a systematic activity directed towards discovering and the development of an organized body of knowledge.	Research						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> _means the activity involving gathering and use of information if it follows the scientific method	Science						eExam

<input type="checkbox"/>									
<input type="checkbox"/>	FBQ	Data results from direct observation and responses to questionnaires are called <input type="text"/>	Primary sources						eExam
<input type="checkbox"/>	FBQ	The type of research projects carried out in academic institutions is known as <input type="text"/>	Project						eExam
<input type="checkbox"/>	FBQ	Exploration, Description, Explanation are <input type="text"/> _type of research	Social						eExam
<input type="checkbox"/>	FBQ	Any organized enquiry that aims at providing information for solving identified problems is Known as <input type="text"/>	Research						eExam
<input type="checkbox"/>	MCQ	Which of the options is/are reason(s) for Research questions?	They are guided questions for collecting relevant data in order to find solution to the research problem	Research questions are directly related to the purpose of the study	They are invariably the purposes of the study transformed into questions	All the options are correct	D		eExam
<input type="checkbox"/>	MCQ	Which of the following options is/are advantage(s) of literature review?	It guides in adopting different and better research methodology than may have been planned earlier by the researcher	It helps in providing or justifying theoretical framework for the study	It enriches and refines research questions hypothesis instrument and references	All the options are correct	D		eExam
<input type="checkbox"/>	MCQ	Which of the options is not correct about Organization of Literature Review ?	The research questions should be arranged property into sub-headings and related section	Review and report materials in accordance with the subheadings of the proposed research	Ensure that the sub-headings relate to the topic of the research	None is correct	D		eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	Which of the options is mitigated against Ethic in research?	A researcher should avoid wasteful and duplicative publications	Researchers should help to educate and promote students welfare and allow them to make their own decisions	Researcher should show respect and care for animal when using them in research	Researchers should maintain and improve their own professional competence and expertise through life long education and learning,	A	eExam
<input type="checkbox"/>	MCQ	The following are the benefits of Ethical norms in research, except?	It helps to ensure that research can be held accountable to the public	It promotes the values that are essential to collaborative work, such as trust, accountability, mutual respect and fairness	It helps to build public support for research people who are more likely to fund research project if they can trust the quality and integrity of the research,	None is correct	D	eExam
<input type="checkbox"/>	MCQ	Which of the options is not the benefit of literature review?	It ascertains the extents to which previous research addressed the problem being investigated	It saves the researcher time because the previous studies will provide inputs, information, mistakes, problem encountered and further suggestions,	It uncovers a funnel of existing data that the researcher might not have known and It helps to avoid unnecessary duplication and a waste of time and resources	None is correct	D	eExam
<input type="checkbox"/>	MCQ	Research abstract, academic journals, professional trade publications, periodicals, conferences proceedings are classified into?	The primary sources	The Secondary Sources	Options A and B	None is correct	A	eExam
<input type="checkbox"/>	MCQ	Which of the options is/are the reason(s) for literature review?	To determine and critically evaluate the current state of the art in the area of study under investigation,	To clarify some fundamental concepts and identify the research work done in the area of proposed study	To expose the gaps or missing links that exist after previous studies which the study being undertaken is meant to bridge,	All the options are correct	D	eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	Which of the options is not correct about Research questions?	Research questions should not lend themselves to only 'yes' or 'no' answers	Probing question which begin with words such as what, which, where, when, how, why,	The language of research questions should be clear and simple for precise questions	None is correct	D	eExam
<input type="checkbox"/>	MCQ	Which of the following options is true about literature review?	Review of literature begins after the findings and discussion	Review of literature begins as soon as a research topic is selected	Options A and B	None is correct	B	eExam
<input type="checkbox"/>	MCQ	Which of the options is not an ethical principles in research?	Honesty and objectivity	Integrity and Carefulness	Openness and Respect for Intellectual property	None is correct	D	eExam
<input type="checkbox"/>	MCQ	Which of the following optios is/are the only reason(s) for refusal of information	The information must relate to legitimate aim listed in the law	Disclosure must threaten to cause substantial harm to that aim	The harm to the aim must be greater than the public interest in having the information's	All the options are correct	D	eExam
<input type="checkbox"/>	MCQ	which of the options is against ethical norms in research?	Fabricating	falsifying	Misrepresenting research data	All the options are correct	D	eExam
<input type="checkbox"/>	MCQ	What is another name for an ethical dilemma?	Ethical paradox	Ethical Norms	Ethical principle	Ethical guide	A	eExam
<input type="checkbox"/>	MCQ	Which of the options should a researcher not discriminate against?	Sex	Race	Ethnicity	All the options are correct	D	eExam
<input type="checkbox"/>	MCQ	which of the following is not one of the steps in conducting library search?	After identifying the broad topics of the study the researcher should list the variables to be studied	If the library has encyclopedia the researcher should locate the latest version and look up for each variable and topic	The researcher should go straight to discussion of the study	The research should also look up each variable and topic in the resent version of the encyclopedia, journals	C	eExam
<input type="checkbox"/>	MCQ	which of the options is/are correct about Ethics?	Ethics are norms for conduct that distinguish between acceptable and unacceptable behavior	It is the method for deciding how to act and for analyzing complete problems and issues	Ethics are morals	All the options are correct	D	eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	Which of the options is not one of the sources for research topics and questions?	Academic journals	Magazine and Periodicals research abstracts	professional trade publication everyday encounters	None is correct	D	eExam
<input type="checkbox"/>	MCQ	Which of the following options is not the reason for Library Resources?	Facility in the use of the library and its materials is the key to research	The library is the store house of knowledge and wisdom	The wide variety of materials found in any library demands a high organization and involves a good system of classification studies	None is correct	D	eExam
<input type="checkbox"/>	MCQ	Which of the options is not the Source of Preliminary Library Information	The Card Catalogue	The Alphabet	The Abstract	The Index	B	eExam
<input type="checkbox"/>	MCQ	Which of the following is not included in report of the design and execution of a survey?	The population and The sampling frame	The sampling method and the completion rate	The method of data processing and analysis	The background	D	eExam
<input type="checkbox"/>	MCQ	Which of the options is a type of sampling methods?	Observability	non – Probability	Probability	Options A and B	D	eExam
<input type="checkbox"/>	MCQ	Which of the following is not true about an Abstract?	It is the executive summary of the entire work	It contains 100 - 250 words	It contains the solution to the problem investigated	It is exactly as the problem statement	D	eExam
<input type="checkbox"/>	MCQ	Which of the options is the process results in the formation of testable hypothesis?	A Frame	Theorization	Operationalization	None is correct	D	eExam
<input type="checkbox"/>	MCQ	Which of the following is not an advantage of Interval Scale?	It is very precise and present no ambiguity in its interpretation	It can lead itself to various statistical manipulation and analysis	Options A and B	None is correct	D	eExam
<input type="checkbox"/>	MCQ	Which of the following options is correct about a scientist?	A scientist conceives of an idea, theorizes, defines operations and then observes	A scientist defines operations, theorizes it, and then observes the idea	Options A and B	None is correct	A	eExam
<input type="checkbox"/>	MCQ	Which of following is not true about References?	It is the final stage in reporting	It is always in one form of style or the other	It is made to related works from the beginning to the end of the project	It is only found in chapter 2	D	eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	When selection is done in such a way that the chosen one is a fair representation of the target population, the action is called?	Frame	Random	Sampling	Variable	B	eExam
<input type="checkbox"/>	MCQ	Which of the following options is correct about the Certification page?	The Certification page comes before the title page	The Certification page comes after the title page	It comes after the background	It comes after literature Review	B	eExam
<input type="checkbox"/>	MCQ	What is another name for area sampling method?	Random	Cluster	Stratified	Systematic	B	eExam
<input type="checkbox"/>	MCQ	Which of the options is a set of research information expressed in quantifiable forms for the purpose of statistical analysis?	Field	Record	Data	Table	C	eExam
<input type="checkbox"/>	MCQ	Which of the following is not type of sampling Method?	Random	Systematic	Stratified and Cluster	Objectives	C	eExam
<input type="checkbox"/>	MCQ	The process of selecting units from a population of interest is called?	Frequency	Modular	Extraneous Variable	Sampling	D	eExam
<input type="checkbox"/>	MCQ	Which of the following options is not one of the sub topic in chapter 3 of a project work?	Sampling design and procedures	Problem Statement	Characteristics of the study population and Data collection	instrument	B	eExam
<input type="checkbox"/>	MCQ	Which of the following options is not a type of variable?	Independent	Array	Dependent	Moderate and Control	B	eExam
<input type="checkbox"/>	MCQ	A unit of a given population is called?	An element	A sample	A population	None is correct	A	eExam
<input type="checkbox"/>	MCQ	Which of the following is a tentative about empirical reality, involving a relationship between 2 or more variable?	A Frequency	A frame	An Observation	An hypothesis,	D	eExam
<input type="checkbox"/>	MCQ	Which of the following is the final step in the traditional model of sciences?	Theorizing	Defining an operation	Theorizing	Conceiving an idea	B	eExam
<input type="checkbox"/>	MCQ	One of the following options is not a reason for using sampling?	It is cheaper than studying the entire population	Sampling is more thorough and afford us better supervision than with a complete converge of the entire population,	Quicker results are obtained than with a complete coverage	None is correct	D	eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	What is the acronym of SPSS?	Statistical Package for the Social System	Statistical Package for the Social Sciences	Statistical Probability for the Social Sciences	None is correct	B	eExam
<input type="checkbox"/>	MCQ	Which of the options is mitigated against Ethic in research?	A researcher should avoid wasteful and duplicative publications	Researchers should help to educate and promote students welfare and allow them to make their own decisions	Researchers should maintain and improve their own professional competence and expertise through life long education and learning	Researcher should show respect and care for animal when using them in research	A	eExam
<input type="checkbox"/>	MCQ	The following research abstract, academic journals, professional trade publications, periodicals, conferences proceedings are classified as?	The primary sources	The Secondary Source	All of the above	None of the options	A	eExam
<input type="checkbox"/>	MCQ	Which of the options is the sources for research topics and questions?	Academic journals	Magazine and Periodicals research abstracts	professional trade publication everyday encounters	All of the above	D	eExam
<input type="checkbox"/>	MCQ	Which of the options is not correct about Research questions?	Research questions should not lend themselves to only 'yes' or 'no' answers, or general purpose questions,	Probing question which begin with words such as what, which, where, when, how, why,	The language of research questions should be clear and simple for precise questions	None of the options	D	eExam
<input type="checkbox"/>	MCQ	Which of the options is reason(s) for Research questions?	They are guided questions for collecting relevant data in order to find solution to the research problem	Research questions are directly related to the purpose of the study	They are invariably the purposes of the study transformed into questions	All of the options	D	eExam
<input type="checkbox"/>	MCQ	Which of the options should a researcher not discriminate against?	Sex	Race	Ethnicity	All of the options	D	eExam
<input type="checkbox"/>	MCQ	which of the options is correct about Ethics?	Ethics are norms for conduct that distinguish between acceptable and unacceptable behavior	It is the method for deciding how to act, and for analyzing complete problems and issues	Ethics are morals	All of the options	D	eExam

<input type="checkbox"/>	MCQ	Which of the following options is the only reason(s) for refusal of information	The information must relate to legitimate aim listed in the law	Disclosure must threaten to cause substantial harm to that aim	The harm to the aim must be greater than the public interest in having the information's	All of the options	D	eExam
<input type="checkbox"/>	MCQ	Which of the options is not the benefit of literature review?	It ascertains the extents to which previous research addressed the problem being investigated	It saves the researcher time because the previous studies will provide inputs	information, mistakes, problem encountered and further suggestions	None of the options	D	eExam
<input type="checkbox"/>	MCQ	Which of the material(s) cannot be consulted when referencing?	Gazettes and Extract	Journals and Dissertations	Magazines and Newspapers	None of the options	D	eExam
<input type="checkbox"/>	MCQ	which of the following is an example of primary data?	Book	Journals and Dissertations	News Paper	Census Report	C	eExam
<input type="checkbox"/>	MCQ	Which of the following options is correct about a Research?	It is a dream	It is a guess	It is a prophecy	None of the options	D	eExam
<input type="checkbox"/>	MCQ	Which of the options is not true about abstract?	It is a resume of a report	It an executive summary of a report	An abstract should be too long	It should contain enough information about the report	C	eExam
<input type="checkbox"/>	MCQ	Research method is a part of -----	Problem	Experimental	Research Techniques	Research Methodology	D	eExam
<input type="checkbox"/>	MCQ	Which of the options is not correct about Significance of the study?	It contains the benefits of the study	It contains the methods used in the report	It contains who will benefit from the study	The benefits should be clear	B	eExam
<input type="checkbox"/>	MCQ	Which of the options is not a type of research?	Descriptive research	Historical Research	Experimental Research	Intuition Research	D	eExam
<input type="checkbox"/>	MCQ	Which of the options is not a type of style of referencing?	Roland	APA and MLA	Harvard	Oxford	A	eExam
<input type="checkbox"/>	MCQ	Good research is always --- -----	Slow	Fast	Narrow	Systematic	D	eExam
<input type="checkbox"/>	MCQ	research through experiment and observation is called	Clinical or Diagnostic	Experimental Research	Laboratory research	Emperical research	D	eExam
<input type="checkbox"/>	MCQ	A research which follows case study method is called	Clinical or Diagnostic	Causal	Analytical	Qualitative	C	eExam
