<input type="checkbox"/>	Question Type ↓	Question ↑	A ↑	B ↑	C ↑	D ↑	Answer ↑	Remark ↑
<input type="checkbox"/>	FBQ	<input type="text"/> is an attribute of a document, which explains the person or persons intellectually responsible for the creation of a work	Author					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	The acronym LCSH represents library of congress <input type="text"/>	headings					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	the physical appearance in which the document appears is referred to as <input type="text"/>	Form					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	The acronym KWOC depicts Key Word out of <input type="text"/>	context					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	The use of <input type="text"/> (SN) is also prevalent in a thesaurus as it provides explanations on the proper use of the terms in the thesaurus.	scope note					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	The axiom of definability proposes that compiling <input type="text"/> relevant to a topic can only be accomplished to the degree to which a topic can be defined.	information					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	NT represents <input type="text"/> term	narrower					<input type="button" value="eExam"/>
<input type="checkbox"/>	FBQ	The acronym OT means <input type="text"/> term	overlapping					<input type="button" value="eExam"/>

<input type="checkbox"/>									
<input type="checkbox"/>	FBQ	What is the full meaning of CT <input type="text"/> term	coordinate						eExam
<input type="checkbox"/>	FBQ	LCSH was originally designed for its use on cataloging <input type="text"/>	records						eExam
<input type="checkbox"/>	FBQ	The axiom of <input type="text"/> equates the success of any directed search for relevant information with the fidelity with which concepts and statements are expressed in the search file.	fidelity						eExam
<input type="checkbox"/>	FBQ	The <input type="text"/> level of indexing theory is the inferential level.	fifth						eExam
<input type="checkbox"/>	FBQ	The use of <input type="text"/> and NT allows a searcher to expand his/her own search.	BT	broader term					eExam
<input type="checkbox"/>	FBQ	UDC stands for <input type="text"/> Decimal Classification	Universal						eExam
<input type="checkbox"/>	FBQ	LCC stands for Library of <input type="text"/> Classification	Congress						eExam
<input type="checkbox"/>	FBQ	The <input type="text"/> level of indexing is the linguistic level which attempts to explain how meaningful words are extracted from large units of text.	third						eExam
<input type="checkbox"/>	FBQ	The <input type="text"/> level of indexing is the information theoretic level which calculates the likelihood of a word being chosen for indexing based on its frequency of occurrence in a given text document.	second						eExam

<input type="checkbox"/>									
<input type="checkbox"/>	FBQ	Concordance otherwise known as <input type="text"/> __ level of indexing, consists of all references to all words in the original text arranged in alphabetical order.	first						eExam
<input type="checkbox"/>	FBQ	GT depicts <input type="text"/>	Generic To						eExam
<input type="checkbox"/>	FBQ	A <input type="text"/> is compilation of words, that also a forms of an authority list.	thesaurus						eExam
<input type="checkbox"/>	FBQ	Indexing language is made up of words or <input type="text"/> that are used in the intellectual contents of documents.	descriptors						eExam
<input type="checkbox"/>	FBQ	the acroynm DDC depicts <input type="text"/> Decimal Classification	Dewey						eExam
<input type="checkbox"/>	FBQ	In order to show what a collection or a database has on a given subject, it must adopt a principle of <input type="text"/>	uniform heading						eExam
<input type="checkbox"/>	FBQ	Cyberstack allows users to browse through <input type="text"/> library stacks containing monograph or serial works, files, databases or search services to identify relevant information.	virtual						eExam
<input type="checkbox"/>	FBQ	The <input type="text"/> is a manifestation of Ranganathan's theory	colon classification						eExam
<input type="checkbox"/>	FBQ	The Dewey decimal classification divides the whole spectrum of knowledge as contained in information materials into <input type="text"/> broad categories.	ten	10					eExam

<input type="checkbox"/>								
<input type="checkbox"/>	FBQ	Use of decimal system enables infinite expansion and <input type="text"/>	subdivision					eExam
<input type="checkbox"/>	FBQ	Dewey decimal classification is a <input type="text"/> system	practical					eExam
<input type="checkbox"/>	FBQ	The <input type="text"/> of Congress collection was organised according to a system devised by Thomas Jefferson.	Library					eExam
<input type="checkbox"/>	FBQ	A <input type="text"/> is an important requirement in a classification scheme, as a poor one would lead to a complete breakdown of the arrangement of documents	notation					eExam
<input type="checkbox"/>	FBQ	A <input type="text"/> is one where two or more simple subjects are combined, or treated equally in a text	compound subject					eExam
<input type="checkbox"/>	FBQ	<input type="text"/> is one that deals with the whole main class or with a single aspect of a class.	simple subject					eExam
<input type="checkbox"/>	FBQ	As a shelving device, library classification has <input type="text"/> objectives	two	2				eExam
<input type="checkbox"/>	FBQ	A simple subject is one that deals with a single aspect of a <input type="text"/>	Class					eExam
<input type="checkbox"/>	FBQ	A <input type="text"/> which is assigned to the subject headings of the document helps to facilitate document retrieval from the shelves	Merger					eExam
<input type="checkbox"/>	FBQ	<input type="text"/> is one of the most ancient classification scheme.	Dewey decimal					eExam

<input type="checkbox"/>									
<input type="checkbox"/>	FBQ	The Universal Decimal Classification scheme was produced by two <input type="text"/> Lawyers, who were interested in the analysis of ideas.	Belgian						eExam
<input type="checkbox"/>	FBQ	An excellent classification scheme must cover the entire <input type="text"/> _as reflected in the literature.	Note						eExam
<input type="checkbox"/>	FBQ	The most important part of a classification scheme is referred to as the <input type="text"/>	Title						eExam
<input type="checkbox"/>	FBQ	The <input type="text"/> was able to provide a sound methodology for designing a scheme for library classification.	Dynamic theory						eExam
<input type="checkbox"/>	FBQ	As a general rule, the order of classes should bring all related subjects to close <input type="text"/> .	Proximity						eExam
<input type="checkbox"/>	FBQ	The <input type="text"/> arrangement of classes in the dewey decimal classification is based on disciplines rather than subjects.	Primary						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> is the link between the subject terms in the schedules and subject terms in the index, which are arranged alphabetically	Capitulation						eExam
<input type="checkbox"/>	FBQ	The <input type="text"/> classification consists of twenty-one classes.	Library of Congress						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> is the process of providing a guide to the intellectual content of a document or a collection of documents.	Indexing						eExam

<input type="checkbox"/>									
<input type="checkbox"/>	FBQ	A document possesses <input type="text"/> numbers of attributes.	Four						eExam
<input type="checkbox"/>	FBQ	The ultimate aim of the classification sequence is to provide a <input type="text"/> arrangement.	physical						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> provides insights to the generally accepted division of knowledge	Classification						eExam
<input type="checkbox"/>	FBQ	In any collection, the most appropriate basis for determining groups varies according to the needs of the <input type="text"/>	Collection						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> displays some sets of attributes which can be used to determine likeness	Documents						eExam
<input type="checkbox"/>	FBQ	The notation is a shorthand code representing the various subject heading used in describing the content of documents in a <input type="text"/>	collection						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> is the last component of classification scheme which lists all the subject terms that have been arranged systemically in alphabetical order.	index						eExam
<input type="checkbox"/>	FBQ	In classification, relative location of subject is a great <input type="text"/> saver	time						eExam
<input type="checkbox"/>	FBQ	The axiom of <input type="text"/> says that the success of any directed search for relevant information hinges on how readily predictable are the modes of expression for concepts and statements in the search file.	predictability						eExam

<input type="checkbox"/>									
<input type="checkbox"/>	FBQ	A <input type="text"/> is one where the combined simply subjects emanate from two or more main classes.	complex subject						eExam
<input type="checkbox"/>	FBQ	A classification scheme consists of <input type="text"/> main components	Three						eExam
<input type="checkbox"/>	FBQ	classificationist often received help to carryout classification through <input type="text"/>	intuition						eExam
<input type="checkbox"/>	FBQ	The most successful means of classifying documents is by <input type="text"/>	subject						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> gathers together all the aspects of a subject term which are likely to have been scattered in the schedules.	Relative Index						eExam
<input type="checkbox"/>	FBQ	<input type="text"/> lists all subject terms in a straightforward alphabetical order disregarding the various aspect of a subject term.	Specific index						eExam
<input type="checkbox"/>	MCQ	BC uses the _____ notation	hexadecimal number	decimal fraction	numeral fraction	None of the above	B		eExam
<input type="checkbox"/>	MCQ	BC uses mixed notation, consisting of _____ oman capital letters, _____ Roman smalls alphabet and nine Arabic numerals (excluding zero)	27, 29	25, 25	26, 27	26, 26	D		eExam
<input type="checkbox"/>	MCQ	Does Bibliographic classification uses the decimal fraction notation.	true	false	unsure	None of the above	A		eExam
<input type="checkbox"/>	MCQ	A good index should be able to serve its purpose with _____ cost	No	maximum	minimum	None of the above	C		eExam
<input type="checkbox"/>	MCQ	The subject terms are usually listed systematically in the _____.	Schedule	Notation	theory	course	A		eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	Specificity involves selecting only terms that are _____ to the document, which is a term that entirely covers the document.	different	common	specific	recent	C	eExam
<input type="checkbox"/>	MCQ	Universal decimal is the oldest of the classification schemes	true	false	Unsure	None of the above	B	eExam
<input type="checkbox"/>	MCQ	In order to remain relevant and _____, a scheme normally has to keep pace with the developments in the universe.	Workable	Formal	Theoretical	Timely	A	eExam
<input type="checkbox"/>	MCQ	What will be the lead term of pre - coordinate indexing in the topic "The Influence of Britain in the Education of Librarians in Africa"	Britain	Librarians	Africa	None of the above	B	eExam
<input type="checkbox"/>	MCQ	A document entitled "The Influence of Britain in the Education of Librarians in Africa" is a multi-concept subject	true	false	UNSURE	PROBABLY	A	eExam
<input type="checkbox"/>	MCQ	Thesaurus functions is to provide a standardized vocabulary for information storage and _____	processing	Retrieval	input	position	B	eExam
<input type="checkbox"/>	MCQ	The general principles of subject headings are in _____ numbers of categories	four	three	five	fourteen	A	eExam
<input type="checkbox"/>	MCQ	In the theory of specific entry, Sears emphasizes the need to to choose the most specific entry to describe a _____	File	Object	Subject	Document	D	eExam
<input type="checkbox"/>	MCQ	In any cluster, the most appropriate basis for determining groups varies according to the needs of the ____	Collection	Large Scale Integrated Circuits	Transistors	Integrated Circuits	A	eExam
<input type="checkbox"/>	MCQ	the library of congress collection was organized according to a system devised by _____	Thomas Henry	Thomas Cook	Thomas Jefferson	Thomas Cooke	C	eExam
<input type="checkbox"/>	MCQ	_____ involves selecting only terms that are specific to the document, which is a term that entirely covers the document.	Weighting	Specificity	Indexing	All of the above	B	eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	_____ is another important device employed by indexing agencies.	balance	weighting	Indexing	scheduling	B	eExam
<input type="checkbox"/>	MCQ	_____ is a quantitative ratio of the number of relevant documents retrieved to the total number of relevant documents present in a collection.	Fixed ration	dynamic ratio	Recall ratio	Precision ratio	D	eExam
<input type="checkbox"/>	MCQ	No matter how efficient an index, if it is costly, then it might not be available to an average library.	true	false	Unsure	None of the above	A	eExam
<input type="checkbox"/>	MCQ	A good index is that which takes a minimum time to retrieve documents that are relevant and precise to the query.	true	false	Unsure	None of the above	A	eExam
<input type="checkbox"/>	MCQ	When the assignment of the content identifiers is carried out with the aid of modern computing equipment, the operation becomes Automatic Indexing.	true	false	Unsure	All of the above	A	eExam
<input type="checkbox"/>	MCQ	_____ is an example in the use of the DDC in organizing digital information resources. Users can select a subclass or topic to get access to the list the general information resource	CyberDewey	Cybersecurity	CyberLink	All of the above	A	eExam
<input type="checkbox"/>	MCQ	A _____ designed for organizing digital resources should be useful in a wide range of settings, and applicable over a wide range of the number of sites to which it applies; and,	Task	Scheme	Form	Subject	B	eExam
<input type="checkbox"/>	MCQ	_____ allows users to browse through virtual library stacks containing monograph or serial works, files, databases or search services to identify relevant information.	Cyber	Cyberlink	Cyberstacks	All of the above	C	eExam
<input type="checkbox"/>	MCQ	A good index should be able to serve its purpose with minimum cost.	true	false	Unsure	None of the above	A	eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	Essentially, the Dewey decimal classification schedule uses only _____ numeral.	binary	Roman	Hexadecimal	Arabic	D	eExam
<input type="checkbox"/>	MCQ	In the Indexing and Classification theory, the Generalia ____are represented by Arabic numerals.	Lists	Classes	Entities	Forms	B	eExam
<input type="checkbox"/>	MCQ	The Dewey decimal classification was initially adopted by many libraries in _____	california	united kingdom	United states	Morocco	C	eExam
<input type="checkbox"/>	MCQ	Which of the following features should a notation possess to ensure that there are aids that will make it easy for users to remember?	Good sight	shorthand key	Typing ease	Mnemonic	D	eExam
<input type="checkbox"/>	MCQ	The wholesome notation of Arabic numerals is _____ recognisable.	nationally	independently	Not	universally	D	eExam
<input type="checkbox"/>	MCQ	A published _____ consists of entries for all subjects dealt with by the classification scheme	Proceeding	Index	Schedule	Abstract	B	eExam
<input type="checkbox"/>	MCQ	A terminology must be clear and precise to the users and the ____, to prevent ambiguity.	Bloggers	Pollers	Classifiers	Scheduler	C	eExam
<input type="checkbox"/>	MCQ	Which features is not desirable in an ideal notation? ____	Mnemonic	Simple	Typing ease	None of the above	D	eExam
<input type="checkbox"/>	MCQ	The primary arrangement of classes in the _____ classification is based on disciplines rather than subjects.	Tertiary	Dewey decimal	Colon decimal	dynamic theory	B	eExam
<input type="checkbox"/>	MCQ	In the Indexing and Classification theory, the Generalia ____are represented by Arabic numerals.	Classes	Forms	Lists	Entities	A	eExam
<input type="checkbox"/>	MCQ	A good notation must be able to accommodate new ____, be flexible and simple to use.	Subjects	Polls	Patents	Cookies	A	eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	What _____ Classification scheme was produced by two Belgian Lawyers, who were interested in the analysis of ideas.	Documentation	Maintenance	Implementation	Universal decimal	D	eExam
<input type="checkbox"/>	MCQ	In the _____ and classification theory, schedule must provide space for new knowledge.	Class	Title	Indexing	Form	C	eExam
<input type="checkbox"/>	MCQ	_____ involves selecting as a large number of topics from a document, that is making as many important topics as are treated in a document as index terms for the document.	Indexing	Simplicity	Depth of simplicity	Depth of Indexing	D	eExam
<input type="checkbox"/>	MCQ	The main function of an index is to reduce the time it would take a use to _____ documents in a collection.	Retrieve	Post	Send	All of the above	A	eExam
<input type="checkbox"/>	MCQ	Subject access tools have been developed to organize and manage _____ resources.	Information	Electronic	Data	Pulse	B	eExam
<input type="checkbox"/>	MCQ	_____ is a centralized integrated and unified collection of selected digital resources using the LC class scheme.	Stacks	Cyber	Cyberstacks	Stackscyber	C	eExam
<input type="checkbox"/>	MCQ	A form designed for organizing digital resources should be relatively easy to maintain and to revise.	true	false	Maybe	None of the above	B	eExam
<input type="checkbox"/>	MCQ	_____ was able to provide a sound methodology for designing a scheme for library classification.	Contextual phase	Dynamic theory	Set theory	Descriptive theory	B	eExam
<input type="checkbox"/>	MCQ	_____ Is another name for subject access tools	Subject categories	Web guide	Subject guide	All of the above	D	eExam
<input type="checkbox"/>	MCQ	BUBL LINK users can gain access to the digital resources by a classified list or through an alphabetical list of subjects?	true	false	Unsure	All of the above	A	eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	_____ is a quantitative measure used to determine the ability of an index as an aid to retrieving documents containing information on a particular request from a collection of documents present in a library of an information centre.	Act ratio	Precision ratio	Fixed ratio	Recall ratio	D	eExam
<input type="checkbox"/>	MCQ	A subject term is chosen to represent a document which will serve as the lead term to that document? Which_____indexing	Post-coordinate	Coordinate	Pre-coordinate	All of the above	C	eExam
<input type="checkbox"/>	MCQ	_____ is a quantitative ratio of the number of relevant documents retrieved to the total number of documents retrieved.	Act ratio	Precision ratio	Fixed ratio	None of the above	B	eExam
<input type="checkbox"/>	MCQ	The _____ Classification is a manifestation of Ranganathan's theory	Bibliographic	Colon	Universal	Dewey decimal	B	eExam
<input type="checkbox"/>	MCQ	Document possess the following attributes, except____	Signal	Author	Title	Form	A	eExam
<input type="checkbox"/>	MCQ	_____ Is not a type of subject?	Simple subject	Beginner subject	Compound subjects	All of the above	B	eExam
<input type="checkbox"/>	MCQ	An excellent classification scheme must cover the entire _____ as reflected in the literature.	List	Note	Knowledge	Brief	C	eExam
<input type="checkbox"/>	MCQ	Ordinarily, a _____ contains the codes assigned to the different subject terms listed in the schedules.	Notes	Notation	Foreword	Notion	B	eExam
<input type="checkbox"/>	MCQ	_____ is one of the most ancient classification scheme.	Griffith binary	colon	Universal decimal	Dewey decimal	D	eExam
<input type="checkbox"/>	MCQ	Essentially, the _____ decimal classification schedule uses only Arabic numeral.	Dewey	Codd	Mixed	Edwig	A	eExam
<input type="checkbox"/>	MCQ	All the following features are desirable in an ideal notation except _____	Protracted	Mnemonic	Typing ease	Simple	A	eExam

<input type="checkbox"/>								
<input type="checkbox"/>	MCQ	The attribte which classifies books by the content of the work is referred to as the _____	Label	Class	Sub-division	Subject	D	eExam
<input type="checkbox"/>	MCQ	Which of the following is a type of subject?____	Complex subjects	Simple subjects	Compound subjects	All of the above	D	eExam
<input type="checkbox"/>	MCQ	Schedule is perhaps the most valuable part of a classification _____	Topology	Link	Scheme	Data	C	eExam
